## Therapy Home Care Section K

**Light therapy**

Seasonal Affective Disorder (SAD) or the "Winter Blues", effects up to 30% of the UK population to varying degrees.

Light therapy has been consistently proven to alleviate seasonal symptoms in approximately 85-90% of cases, within 4-12 days of use.

There are four classic symptoms experienced by SAD sufferers during the winter months:

- Fatigue and lack of energy
- Greater need for sleep/sleep disorders
- Cravings for carbohydrates and sweet foods, often leading to weight gain
- Depression, low moods
